

CONSTRUCTION CASE STUDY 2

American Executive Private Security

American Executive Private Security, Inc. is a small security company that specializes in event security, construction site security, and residential security at multi-unit complexes. We have over fifteen years of government and private sector experience in security patrol and security consultancy services throughout Southern California.

Jordan Downs Redevelopment Phase 1A

Location: Los Angeles, CA
December 14, 2017 - December 14, 2020

Award: **\$467,425.94**

Scope of Work:

Cannon Constructors, Inc. retained AE Security to provide onsite security during the demolition and reconstruction of a 71-unit apartment complex in Midway City, CA. This contract is under the Section 3 Federal Hiring Program for local hires, with a requirement of six new guards. AE Security is responsible for hiring and training those six local hires to provide unarmed security services for the property. The guards are utilizing body cams which record any incidents while also generating daily activity reports. Typically, these reports are delivered to the AE Security management team and the Cannon Constructors Project Manager, Superintendent, and Engineer. Cannon Constructors assigned AE Security on this current project as a subcontractor, as they were the prime contractor for the HUD / HACL A development project.

Market Differentiators:

- AE Security is a Section 3 Approved Business
- Los Angeles County Consumer & Business Affairs Certified MBE / Community Business Enterprise

- Southern California Minority Suppliers Development Council - MBE Certification

- Destiny Software - Automatic Reporting Tool for Onsite Security and Patrol Services / Guard Touring Software, includes geofencing through Google Maps.
- Our robust management team can source, interview, and hire local talent for Section 3 contracts, and meet the two-week turn-around time for local hires, per Section 3 requirements.
- Relationships with WorkSource centers and Security Training Centers in various locations, so we can utilize officers within a 10-15 mile radius of the communities.
- All AE Security guard staff undergo training at our third-party facility, the Davis Training Facility of Los Angeles CA, where they are screened for COVID-19, instructed on how to properly execute temperature checks, how to identify fraudulent vaccination cards, and how to maintain CDC guidelines to protect staff and the general public.
